for 3D Studio MAX

Cult3D Exporter for Maya

Become an Authorized Cult3D Designer!

At Cycore, we want our customers to explore and use the full range of features and benefits that Cult3D has to offer. The best way to ensure our customers get the most out of Cult3D is to provide a qualified support network of Cult3D Designers.

Cycore is proud to introduce a worldwide certification program that will enable users to become official Authorized Cult3D Designers. The designer's quality stamp will contribute to innovative, useful and successful Cult3D implementations.

To become certified you must pass a test, consisting of up to 40 multiple-choice questions about the preparation of an object in a 3D application, such as 3D Studio MAX or Maya, and using the Cult3D Exporter, and the Cult3D Designer. The cost of the test is $165 USD.
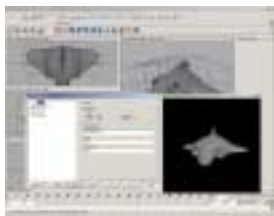

To pass, you must get 65 % or more of your answers correct. If you pass, you will receive a certificate from Cycore stating that you are an Authorized Cult3D Designer. Your certification applies to the version of the Cult3D designer for which you have taken the test.

For more information and to register for the certification test, please fill in the application form at www.cult3d.com/education/virtual.html.

Getting started

Cycore's Virtual Campus, www.cult3d.com/education/virtual.html, is the perfect place to start preparing for the certification test. Everything you need to know is available, for free, at our Virtual Campus.
Please contact education@cycore.com with any further questions.
